Como

## Michael Lee Centre

The Michael Lee Centre will open in early 2019. Situated in the leafy streets of Como and the scenic surrounds of Collier Park golf course, the new Centre will offer state of the art services and a welcoming home like atmosphere. This innovative centre has incorporated current best practice design to ensure the older person can live comfortably in a modern environment.

Over 2 levels, the centre is divided into 8 small houses, each with single bedrooms with private ensuites. Each house will have its own front door, lounge/ dining room, activity area and private family room.

The manicured gardens, secure outdoor settings and communal areas provide spaces for residents and visitors to enjoy. The Centre will boast a café, which will enable residents, family and friends to socialise.

A hairdressing and beautician salon will also be available. A choice of meals, from menus developed in conjunction with dieticians will be prepared on site, providing fresh and varied meals for our residents.

The latest technology has been integrated to ensure our on-site team of registered nurses, care staff, hospitality, allied health and administration staff, will provide the highest quality accommodation and services catering for older people, those living with dementia and respite services.

The Como centre currently provides accommodation for 38 residents living with dementia in a secure environment supported by our devoted team of staff. These residents will transfer to the new Michael Lee Centre when opened.
