

Please do not take any risks with your loved ones, if any family member/s are unwell with any flu-like signs and symptoms, please do not expose them as this is highly dangerous.

If families would like to visit during mealtimes, you can use your loved one's room as we cannot guarantee we could accommodate everyone in the visitor's areas; unfortunately, Meath are unable to supply any meals this year.

So, as we look back on 2020, lets concentrate on the positives and new initiatives that have come about and celebrate how resistant and resourceful, we have become.

Hopefully in early 2021 the vaccine will be rolled out and life can return to some normality.

In closing I want to acknowledge all the wonderful staff at Meath Care who went the extra mile to ensure our residents received the best possible care and attention during 2020.

On behalf of the Board and Staff, I would like to offer all our residents and families' best wishes for the festive season and a prosperous New Year.

Olive Wright
Chief Executive Officer
Meath Care (Inc)
December 2020
