

Memorandum

To: Residents, Families and Representatives

From: Olive Wright - Chief Executive Officer

Date: 10 May, 2021 **No. of Pages:** 1 *(including this one)*

Subject: COVID-19 Urgent Update

Dear Residents, Families and Representatives

It's very pleasing to see that Western Australia is slowly returning to some normality and residents can now have up to four visitors per day; however masks are still mandatory for both visitors and staff.

Meath are pleased to inform you that from Monday 10 May 2021, our new electronic visitor management system will commence; the new system is easy to navigate, and instructions will be provided when you come to sign in.

Can I please encourage all visitors to be patient as it will take some extra time initially until we become familiar with the process.

From the 1 June 2021, any visitors to our centres are required to have a flu vaccination; once you receive your vaccination, please give a copy of the evidence to the receptionist who will enter this data into the new system; you will not need to provide this again.

Once again, many thanks for your ongoing support and cooperation at this time.

Yours faithfully

OLIVE WRIGHT
CHIEF EXECUTIVE OFFICER
