

Dear Residents and Representatives,

A brief update for the relatives of residents at Michael Lee Centre, Como.

All residents in Karri and Tuart were retested by our staff using RATs this morning. Pleasingly, aside from the established cases, there are no further COVID-19 positive results.

The other information I must provide is that, after further deliberation, Public Health have instructed Clinipath to undertake whole of site PCR testing. This will occur tomorrow, Sunday 13 March 2022, and all residents will be encouraged to have a PCR test. The results from this blanket testing should give definitive indication of any cases that are yet to be identified.

Please note that our conditions of visiting are unchanged.

Thank you for your ongoing understanding and support.

With best wishes,

**Chris Roberts**  
Chief Executive Officer
